This letter is in regards to the rate increase proposed by the Dragoon water company. We feel that the increase by 2/3 is totally out of line. Most of the people out here are retired and living on Medicare and we don't get a 2/3 reate increase in Social Security checks. In fact most of us are just able to get by with the cost of living now and can't afford a rate increase of this magnitude. I pray that the commission will not allow this increase! We have cut back now on our costs to make our bills payable, with the increase cost of hospital insurance we have had to stop the internet already and shut off the phone in the house. I don't know how we would pay a increase of this size we cannot live without water that is for sure so all that would leave us is to sell our house and find some where else to live. That is one thing we would not want to do for sure. So once again please do not allow this increase in the water.

Thank you,
Janes and Stephanie Baughman
